Brief Summary of Work Experience:

I have worked as a website developer for businesses, assisting companies and political figures in creating WordPress websites. My entrepreneurial background greatly enhances my collaborative skills. I am eager to learn and adapt quickly, as evidenced by my age. In my spare time, I attend programming courses at CodeAcademy to become a Full Stack developer.

Work Experience:

Personal websites, Summer 2021

Website for a barber shop in Oulu, Summer 2022

Website for a parliamentary candidate, December 2022 - April 2023

Website for a jet ski company in Oulu, Summer 2023

Participation in the programming competition "Datatähti", Autumn 2023

Creation of my own Full Stack web application, 2024 - present
